

WIM

arper

Wim

A quintessential form, pared down to its most elegant components, Wim it is a collection of companion piece tables to Arper's seating catalog. Compact in form, but expansive in use, Wim can act alone, or pair in groups for commercial or contract contexts while still retaining its archetypal identity.

Wim joins Arper as a collection of tables designed to complete the sentence of Arper's seating options. Durable materials like aluminum, high-pressure laminate and wood create a sturdy construction of an adaptable form available in round (started from Ø 59 cm), square (started from 59 X 59 cm), or rectangular (started from 69X139 cm). An aluminum cross base supports the integrity of the silhouette to create a form that can be repeated for group contexts like restaurants or bars, or isolated for use at home where a union of function and beauty are paramount.

Designer

Lievore Altherr Molina, 2016

Lievore Altherr Molina was founded by Alberto Lievore, Jeannette Altherr and Manel Molina in 1990. Their humanist design approach is informed by the fundamental desire for pure, beautiful forms derived from the constraints of function, technology and context. Distinguished by a multi-disciplinary method that engages furniture, interior, product, and package design, their work has been globally exhibited and acknowledged. They are the recipients the prestigious National Design Award (1999) in Spain where they practice and teach extensively.

Applications

- Canteen
- Cafeteria
- Restaurant
- Office
- Campus
- Break-out area
